Burt:

Some time ago I requested that you transfer six complete Systems No. 1 from Harry's order to our account. Accordingly, this letter will serve as formal authorization for this transfer. Such additional six units are to be delivered to [redacted] as is being done with the present Project Systems No. 1 on order and as was the case with the previous nine systems transferred from Harry's account to the Project.

25X1A

Will you ask [redacted] to make appropriate revision of the contract schedules (Requirement No. 1 and Requirement No. 2) when he revises such schedules in connection with System No. 2 and System No. 3 changes.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Project Director, Project AQUATONE *Rmb/m* DATE: SPM 6-117
 Attn : Project Contract Officer OCT 18 1956

FROM : Chief, OC-SPD

SUBJECT: Transfer of Six Additional System #1's

This is a long delayed memorandum for the purpose of confirming an arrangement made at one of your meetings with the undersigned, the ESO, and the Contract Officer.

Please arrange to transfer six complete System #1's to Project AQUATONE from the quantity produced for general Agency use. The latter were procured using Office of Communications funds under allotment #7995-50. For the time being, please postpone any action to re-transfer funds for these six units until we have determined the most effective manner of payment. It seems likely that a modest quantity of conversion kits will be required which may balance the cost of the six System #1's.
